Program:

Member Apryl Tubbs stepped up to provide the program for the week. She spoke on the new program Tioga County Partnership for Community Health (The Partnership) is going to be facilitating. The Strengthening Families program was started because of data collected through surveys that The Partnership has been taking in the local school districts. The surveys have been helpful pointing out areas in our local families that need improvement. The Partnership is taking referrals and will send out personal invitations to 7-10 families to participate. Funding is available for all aspects of the program. They will provide transportation, childcare, and a meal for the participating families. The program will be 7 weeks long and will be guided by trained facilitators. Apryl will keep our club posted as the program progresses
